HB42 Ultimate Range

High Performance Premium Trade Products

The HB42 Story

The number 42 is the 'Ultimate Answer to... Everything' (Hitchhiker's Guide to the Galaxy), and HB stands for Hilton Banks, the company who created the brand. Hilton Banks is a trusted manufacturer and distributor, supplying trade products to the independents since 1850 from its warehousing in Hampton, Middlesex. Hilton Banks has always been (and continues to be) managed by the Banks family; our focus in our 170 years has always been quality and creating strong merchant relationships.

Following the successful launch of the HB42 Sealant Range in 2013, the HB42 team have undertaken extensive market research into the latest manufacturing technologies, using only the highest quality materials to create high performance premium trade products.

The HB42 range has seen steady growth

and now includes award winning sealants, adhesives, fillers, paint and more! We aim for every product to meet the exacting standards of the construction industry in performance, health and safety, strength, speed and ease of use and to provide professionals and DIYers with the tools to do the job done right first time.

HB42 Eco-Foils = 95% less waste than plastic cartridges

HB42 Eco-foil delivers a Huge Reduction in plastic waste: for every 20 Skips of plastic cartridges only 1 skip of HB42 Eco-Foils goes to landfill ...some 23% of the total plastic consumed in the UK comes from the construction and demolition sector (it is estimated over 2 million plastic cartridges are taken to landfill sites each week in the UK alone!).

Give your customers eco choice + better value with HB42 Eco-Foil. The 400ml foil gives you 30% more sealant compared with the 290ml cartridge for the same price!

HB42 Eco-Foil offer one of the best eco alternatives to traditional sealant and adhesive plastic cartridges. Since our launch, HB42 Ultimate Sealant & Adhesive has proved to be a runaway success ...as

a result the HB42 team are investing and expanding the HB42 Range to include a full range of Eco-Foils. Coupled with our pro-barrel gun the future of HB42 Eco-foils is a growing market not to be missed.

HB42 Ultimate Wood Filler

Ultimate Wood Filler is an ultra-smooth '2-part' styrene free wood filler that provides a tough, long-lasting repair on all woods for both inside and outside jobs!

Use HB42 Ultimate Wood Filler for all professional wood repairs. Comes as an easy mix application, setting hard for a strong and tough finish in 30 minutes. Once dry it can be drilled, carved, sanded

or planed. It is weatherproof, paintable and even stainable. Perfect for repairing wood damaged by wet rot on furniture, window sills, frames, doors and banisters. HB42 Ultimate Wood Filler can also be

used on grain filling and repairs to shakes, cracks, splits and knot holes. It can even repair wooden constructions including some marine applications. Available in 275g, 550g, and 1kg.

“...fill, finish and coat the same day!”

Key Technical Specifications

- Styrene Free, Low VOC's
- Interior and Exterior Use
- Ultra-Smooth
- Sets in 30 minutes
- Drill, Screw, Sand & Plane
- Paintable and Stainable
- Flexible
- Easy Mix Application
- Easy Sanding / Non-Clogging

HB42

“...Durable and UV resistant, it contains no silicone, isocyanates or bitumen and is Phthalate free!”

Ultimate Waterproofer

Using the latest MS Hybrid Polymer Technology HB42 Ultimate Waterproofer creates the perfect waterproof membrane straight out of the tub ...it is highly elastic, self-levelling, non-brittle and has gap filling properties suitable for all kinds of waterproofing repairs inside and out.

Apply straight from the tub with a brush, trowel or squeegee - there is no need for mixing - it's ready to use. Easy to apply, fast curing and immediately waterproof. It can also be applied on dry or damp surfaces making it ideal for leaks and ruptured seals.

Ideal for repairs to roofs, around chimneys, roof domes and gutter sealing and

can also be applied to prevent the rotting of wood and corrosion of metals. HB42 Ultimate Waterproofer can be used in tanking applications, sealing floors, fixings, plasterboard, wood and walls and even shower trays too. Not only that, it can be used as a tile adhesive, sealing concrete foundations, balconies and can be used on stone, metal and polystyrene foam. It is odourless and has low emissions.

Key Technical Specifications

- Instant waterproofing
- Fast curing, ready to use
- Ideal for repairs to flat roofs, around chimneys, roof domes, gutter sealing and balconies
- Tanking applications for floors, walls, shower trays
- Sealing of basement walls and concrete foundations
- Protection against rotting timber & metal corrosion
- Adheres to concrete, stone, metal, wood and PVC
- Leave as a rubber finish or paint, plaster or tile over
- Use as an antislip membrane

HB42 Pro-Finish Dec Caulk

The Ultimate Decorators Caulk 380ml has over double the flexibility of leading caulk brands at 12.5%, making it more resistant to movement and longer-lasting. HB42 Ultimate Caulk also fills deeper and wider than most other caulks. Like all HB42 Products, our caulk is designed for a professional finish and adheres to top industry standards. Get a smooth matt finish and overpaint in 1 hour.

HB42 Ultimate Pro-Finish Decorators Caulk is an easily applied, white, solvent-free, acrylic sealant for external & internal use. It forms a durable, flexible seal and contains a fungicide to discourage mould growth. It can be overpainted within 1 hour depending on temperature and humidity. HB42 Ultimate Pro-Finish Decorators Caulk is made to the highest specification and will withstand joint movement capability of up to 12.5% and can be used in joints up to 25mm wide and 20mm deep.

Manufactured to EN ISO11600 F 12.5P, BS EN 15651, F-EXT-INT.

APPLICATIONS: Sealing around window frames, architraves, cornices, PVC profile trim and cladding, plasterboard joints. Sealing cracks and gaps in plaster, brickwork, stone, concrete and between skirting board and walls. Can be used as an adhesive for bonding polystyrene. NOT suitable on PE, PP, Teflon and bituminous surfaces. This product should NOT be used below ground level.

Key Technical Specifications

- Maximum Flexibility 12.5%
- Interior & Exterior
- Fills Deep and Wide
- ISO-11600-F-12.5
- F-EXT-INT
- Overpaint in 1 hour
- Anti-Mould
